IT management from Royal Boskalis Westminster N.V. visit Godrej Infotech Limited, Mumbai

Mumbai, Maharashtra - Royal Boskalis Westminster N.V. is a leading global dredging and offshore contractor and maritime services provider. The organization operates a versatile fleet of more than 900 vessels and floating equipment's across 90 countries. Headquartered in Papendrecht, Netherlands, it has over 100 years' experience in hydraulic engineering, coastal protection and land reclamation. The company employs 11,700 experts globally that specialize in the development, construction, maintenance (IRM) and decommissioning of oil and LNG import/export facilities, offshore platforms, pipelines and cables and offshore wind farms.

Boskalis has awarded a 3-year Managed Support services contract covering Infor applications to LVD Godrej Infotech (LVDGI), the Belgian subsidiary of Godrej Infotech Limited (GITL). GITL is a Global IT service provider with Head Office and Development Centres in India and operations in Belgium, Singapore, USA and Gulf countries in UAE and Saudi Arabia. GITL is also an Infor Alliance and Development Partner, with more than two decades of providing implementation, rollout, migration and support services to Customers across manufacturing, logistics, services and projects sectors on BaaN and Infor applications.

The IT management of Boskalis visited the Mumbai development centre of Godrej Infotech wherein they interacted with the management and engagement team of GITL through a series of workshops and meetings that were conducted to demonstrate the progress of the engagement and showcase the scale of operations across multiple business operations of the Godrej Group. This was a strong step towards building collaboration between both the organizations.
