**Message from our Global Business Head
Business Continuity is our Priority**

Dear Friends,

We were always familiar with the word 'Disruption' when it came to designing business strategies. Little did we know that one day we would reach a point where a word like this would have such an enormous impact on the world. We have been dealing with technology disruptors for long but dealing with a human biology disruption is something that were all unprepared for.

At Godrej Infotech, we are standing by your side to support your business continuity efforts at this uncertain time. We have also invoked the organization's Business Continuity Plan to ensure no impact to our Customers. Our management team is meeting regularly to stay on top of the situation based on regular updates from local, state and federal agencies.

At this point, I am truly grateful and would like to thank our Customers for keeping faith and belief in ability to serve them better. I would also like to express my gratitude to all Godrejites for their significant efforts in staying positive and continuing with their commitments.

Let's not forget that this situation has also given us an opportunity to rise to the occasion and become proactive to create more value for our Customers, in the form of improved solutions and services in the areas of ERP, Cloud, Digital, CRM & Mobility. With dedication & enthusiasm, we need to move forward and keep the focus on our pillars of Performance, Productivity, Accountability and Sustainability.

As an organization, our lines of communication are open. In case you have any concern or challenge, please do feel free to reach out to me.

Stay Safe, Stay Healthy.

Kingshuk Chatterjee,
Global Business Head
