

Godrej Infotech is Proud &  
Excited to Announce

## **First Infor LN Cloud Suite Implementation for Steel Strong Valves India Pvt. Ltd.**

*Happy to announce that we have successfully gone live on Infor LN Cloud Suite for Steel Strong Valves India Pvt. Ltd. This solution automates inventory handling, assembly line processing & production planning activities resulting in sustainable manufacturing, accelerated factory automation & improved production efficiency.*

*"I take this opportunity to congratulate both Steel Strong & Godrej Infotech teams for this collaboration and making it a successful go-live. Godrej Infotech as Influential Partner for Infor, has been working with customers globally for automating business processes through technology innovations. This project is an excellent example of digitalization using next-gen cloud technologies and will help discrete manufacturing organizations optimize their processes to achieve their goals of sustainability & business continuity."*

**Kingshuk Chatterjee,**  
Vice President
