

## GITL's INFOR LN Consultants Triumph in Sweden

In a significant achievement, one of our senior functional LN Services consultant was selected by Sweden's largest transportation products and services organization. The group company is comprised of as many as 2000 subsidiary companies across the globe. The company reported annual net sales of SEK 273 billion for FY13. The cars division recorded an 8.9% increase in sales with 465,866 cars sold in 2014. This win is in addition to our existing technical development and support services provided for various client projects in Sweden.
