Biggest Hamburger Company in KSA Signs Up for Integrated POS Solution

With this win, GITL is now the sole Microsoft Dynamics partner for one of the largest fast food retailers in the Kingdom of Saudi Arabia. Begin part of a global chain, POS solution for the KSA location is handled entirely by the US company. The client's need was for an end-to-end solution that could seamlessly integrate with their existing POS system. The Microsoft Dynamics NAV solution was proposed as the standard back office system. The development of an integrated reporting module, with real time data from POS Systems gives a consolidated perspective to decision makers.
